This post is the debut of the BA Top 10, a monthly roundup of the best new restaurants, bars, and more--in a single category. Today, we look at America's best new sushi spots.

BRUSHSTROKE

New York

Acclaimed chef David Bouley left his French-food comfort zone to open this Tribeca spot with Osaka's Yoshiki Tsuji in 2011. Known for their *kaiseki*--a set menu for a multicourse meal--the duo expanded the raw fish selections this April with a bar devoted to *Edomae* (usually pristine *nigiri*--rice crowned with fresh fish).

What to Order: Sample the kampachi sashimi, of course, but don't turn up your nose at the ethereal seasonal soups, either.

Good to Know: That striking wall in the bar is not made of crisscrossed pieces of wood, but rather of 25,000 paperback books, stacked with pages facing the diner.
