Tribeca Film and Food Pairings

Eight Tribeca-centric dinner and movie pairings to take your Tribeca Film Festival experience to the next level.

APRIL 19, 2012

8. *Wavumba* and Brushstroke

The Film: A documentary film about Masoud, an old Kenyan fisherman who teaches his grandson the family trade while in pursuit of what could be his last great catch. Punctuated by tales from Masoud's glory days and scenery that drips with saturated color, the film is a feast for the soul and the eyes.

The Fare: Complexly crafted fruits of the sea on Brushstroke's ten-course spring kaiseki artisanal menu. Start with a delicate chawanmushi with Florida pink shrimp, followed by a parade of Japanese whimsies ranging from the chef's selection of sashimi to tilefish steamed in cherry blossom leaves to grilled black cod with uni, Dungeness crab, tomato-infused maple syrup, and broccoli rabe purée. *30 Hudson St., 212-791-3771; davidbouley.com*
