Bouley Designed

Bouley Designed

There's more than one way to experience Bouley. Our mission continues to create the most nutrient dense menus, immersing guests in a community of shared culinary knowledge for unbreakable health.

Even during this extremely challenging year, we continue to reimagine what Bouley can be. We reached new audiences through our adapted virtual programming and continue to offer catered off premises events. Our new book 'Bouley at Home Living Pantry' is in development 2021, that will coincide with our Membership Program and Chef and Dr. Series.

As part of our transformation we have a selection of keepsakes from the many incarnations of Bouley. Please enjoy the enclosed items for sale as we redesign the future 'Bouley'. For any questions please email us at connect@bouleynyc.com.

Stay safe, well and vigilant.
Herbal Blessings,
David Bouley

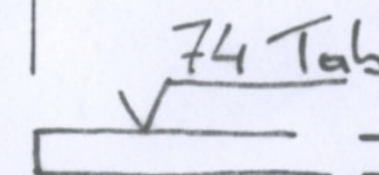

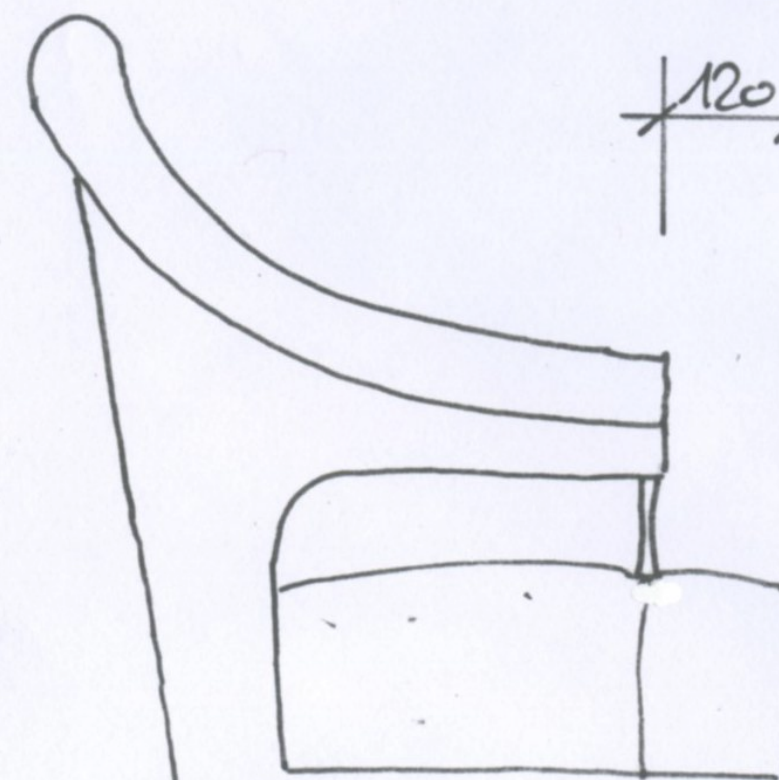

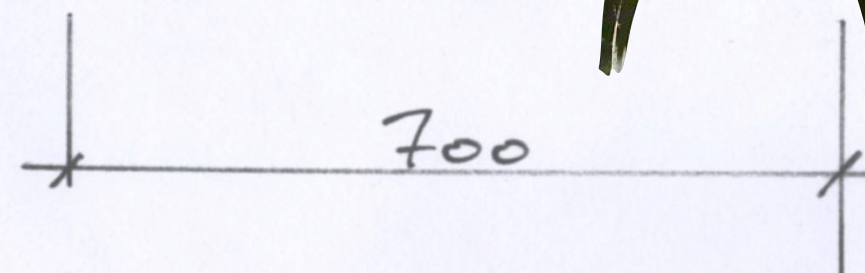

Lighting, Paintings, Copper Ware, Furniture and more...

Each item chosen for Bouley represents a signature in style and craftsmanship - make them your own.

Furniture: Chairs, Tables, Mirrors +

In keeping with Chef David Bouley's signature dishes, his orchestration of decor and attention to detail are as profound as his use of ingredients. With a collaborative mind Bouley plays an active roll with each trade, guild artisans and renowned designers he has had the chance to commission: from Legion of Honored Jacques García to the Kerylos design team in Paris, to Takashi Sugimoto/SuperPotato from Japan, to Ian Ingersoll from Cornwall, Connecticut. Artists are guided with inspirational directions that push their own limits with encouraged freedom. All this to define Bouley's vision for his guests: to be transported from the moment they enter the room - all the senses magnified, receptive to discovery. We hope these items take you and your family on their own journey of exploration..
