A detailed still life painting featuring a large, dark, ornate vase filled with a variety of flowers, including roses, chrysanthemums, and carnations. The vase sits on a wooden table. In the foreground, there are more flowers and a small basket of fruit. To the right, a large, round, red object, possibly a fruit or a decorative item, is visible. The background is a soft, hazy landscape with a building and trees. The overall style is classical and detailed.

Bouley Designed

Bouley Designed

There's more than one way to experience Bouley. Our mission continues to create the most nutrient dense menus, immersing guests in a community of shared culinary knowledge for unbreakable health.

Even during this extremely challenging year, we continue to reimagine what Bouley can be. We reached new audiences through our adapted virtual programming and continue to offer catered off premises events. Our new book 'Bouley at Home Living Pantry' is in development 2021, that will coincide with our Membership Program and Chef and Dr. Series.

As part of our transformation we have a selection of keepsakes from the many incarnations of Bouley. Please enjoy the enclosed items for sale as we redesign the future 'Bouley'. For any questions please email us at connect@bouleynyc.com.

Stay safe, well and vigilant.
Herbal Blessings
David Bouley

Lighting: Chandeliers, Sconces, Lamps +

Chandeliers

These crystal fruit chandeliers were created in the tradition of the 17th and 18th century chandeliers that were popular in the court of Louis XV, Louis XVI and most of the European courts like Russia and Austria.

The supporting arms are sand cast -somewhat of a lost art- of hand poured molten bronze. This traditional and proven method gives them a true handmade finish by allowing the natural imperfections from the sand molds. The high quality crystal is Bohemian crystal which was used in all the courts of Europe to make their finest glassware, wine decanters, crystal pitchers and more. The fruit, an array of apples, pears and grapes are hand ground from bars of the colored bohemian crystal.

This traditional method of making chandeliers allows for the best aging with the bronze part darkening some over time while the crystal parts retain all of their glitter.

Just as with wood work, stone carving or tile making, there are few workshops left in France that work in this traditional and artisanal manner.

Sconces & Table Lamps

Similar to the chandeliers, these crystal fruit scones were created in the tradition of the 17th and 18th century chandeliers that were popular in the court of Louis XV, Louis XVI and most of the European courts like Russia and Austria.

The supporting arms are sand cast of hand poured molten bronze. This traditional and proven method gives them a true handmade finish by allowing the natural imperfections from the sand molds. The high quality crystal is Bohemian crystal.

Table Lamps selected by Chef Bouley celebrate an attention to craftsmanship and whimsy. Enjoy a connection to the unconscious of all things made by hand.
